> "Heficed provides IP diversity, good support and good control panels"

The Client _

Buyproxies.org began as a small startup in 2011 but has fast become one of the most prominent names in proxy services and now leads the way in providing quality and affordable private proxies. The business offers specialised packages in addition to more general purpose services, and Buyproxies.org prides itself on fast delivery times and efficient customer support. Its key features include unlimited bandwith, hundreds of locations and API integration which allows users to read the proxies in '.txt' files directly from running scripts.

Buyproxies.org is one of the most popular and most shared proxy providers and receives very good feedback from customers.

Buy🌐Proxies

Challenges _

Proxies are intermediary servers that stand between the websites a person is browsing and the system that they are accessing so it's essential that proxy servers are fast, secure and high quality.

The private proxies offered by Buyproxies.org work with Instagram, Google, Facebook, Twitter and many other high traffic platforms so its servers need to be fast to keep up with high levels of demand. Buyproxies.org also provides servers from around the world and so required hosting platforms that were going to be stable and secure no matter where its customers were based.
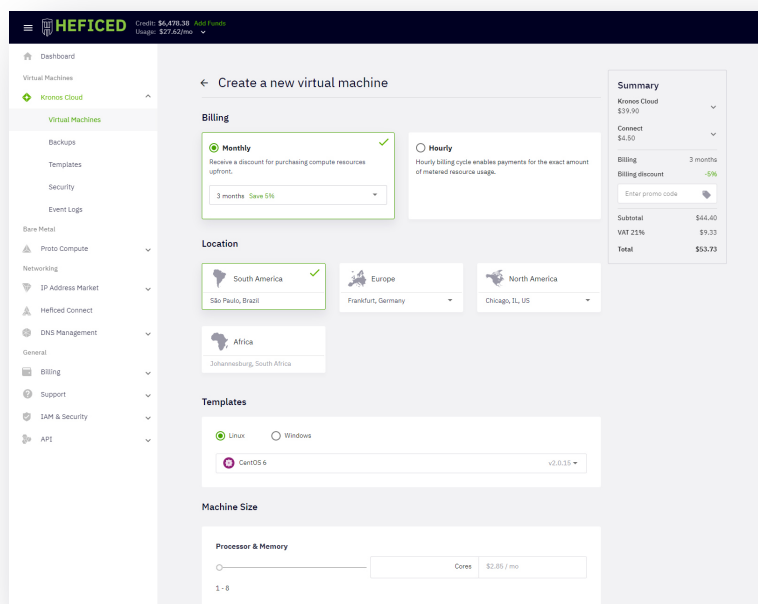

Before working with Heficed, Buyproxies.org reported experiencing significant downtimes and receiving slow or poor customer support from other providers. Some of the providers it used also turned out to be resellers which created problems for the business.

Our Solution _

Heficed offers a range of products and services designed to help businesses, and the most purchased of our products by Buyproxies.org was Kronos Cloud. Kronos Cloud hosts and manages workforce operating systems of all shapes and sizes in the cloud and is well known as the global leader in workforce management. Its unified platform provides a full suite of applications for managing and nurturing the entire workforce, including payroll and human resources. In addition to a whole range of other benefits, Kronos Cloud also offers its users the facility to securely access applications over the web using mobile devices, tablets, laptops, and desktops.

Kronos is built with robust hypervisor functionalities which means data heavy digital transactions can take place easily and securely and, just like Buyproxies. org, many of our clients report experiencing excellent results from using Kronos Cloud, particularly when scaling their businesses. You can find out more about Kronos Cloud here.

Buyproxies.org purchased Heficed servers for its proxies and VPNs because of the speed, stability and security of the Heficed servers. It also purchased IP addresses to enable better hosting solutions. You can find out more about our IP products and services here.

Implementations _

Tudor Andrei, representative at Buyproxies.org was impressed with the implementation of Heficed cloud servers and reported experiencing very positive results, stating that Heficed provided "IP diversity, good support, and good control panels".

Result _

Buyproxies.org is a big business and tested the services of a range of hosting providers before deciding which providers to work with in the long term. After first hearing about Heficed through the hosting forums, Buyproxies.org tested our servers and was happy to begin working with us, finding that the level of support it received and the speed, stability and flexibility of our servers meant that it continued to work with us long after the initial trial period had expired.

In particular, Buyproxies.org found that purchasing our Kronos Cloud product saved it a lot of time because the server didn't require external support and could easily be managed in-house.

The Future _

Buyproxies.org intends to continue its pattern of growth and is dedicated to taking care of its clients into the future. We're proud to be able to continue to support Buyproxies.org and look forward to seeing how the business develops.
